POSED GROUP PHOTOS:

When ordering chorus photos we suggest choosing a more rectangular print size to accommodate the width of the stage. See examples below.

8X18

8X10

When a chorus is very large they are more rectangular. For this reason we recommend ordering a more rectangular size image, otherwise there will be a disproportionate amount of space on the top and bottom of the image. For example, an 8x10 is less rectangular than an 8x18 and because of this there will be more space on the top and bottom.

Chorus Size Selection Table

8x10 or 11x14 is suggested for choruses up to 30 members on stage

8x16 or 11x14 is suggested for choruses up to 40 members on stage

8x16 is suggested for choruses up to 50-60 members on stage

10x18 is suggested for choruses over 70 members on stage

For posed photos at International Conventions we recommend making sure you practice your final onstage pose to make sure that everyone's faces can be seen, as our photographer will not be able to direct the group.

ONLINE ORDERS

ALL photos will be available to order from our website approximately 30 days after convention.
